your success**

Join IPAF today

**The world authority
in powered access**

Become part of a world authority

Access International which is free to IPAF members, plus IPAF's Powered Access Annual Magazine.

IPAF membership will bring you invaluable information, networking opportunities, significant savings, growth possibilities – and the respect of your industry.

Membership of IPAF provides a whole range of services that will help you develop your own business. It also offers you the opportunity to play your part in shaping the future of the industry.

- You get free access to a wealth of valuable, practical information on the legal, technical and commercial aspects of platform use.
- IPAF's specialist advisory service covers every part of the powered access industry - and can provide the information you need to improve your business.
- You also receive up to date industry news - including free copies of the official IPAF magazine, Access International.
- This magazine includes the IPAF newsletter, Raising the Standard - as well as a regular members' bulletin.
- As a member you can also use the IPAF boardrooms at Moss End and Basel.
- You will benefit from IPAF's presence at exhibitions and other events throughout the world.
- There's also the IPAF website at www.ipaf.org which is constantly updated with breaking news, as well as our latest services, new committees and additional fact sheets.

www.ipaf.org

On the IPAF website, you can quickly find:

- Health and safety information
- References to relevant legislation
- Details of forthcoming events
- Answers to other key questions.

Our website keeps you up-to-date with what's happening in the world of powered access.

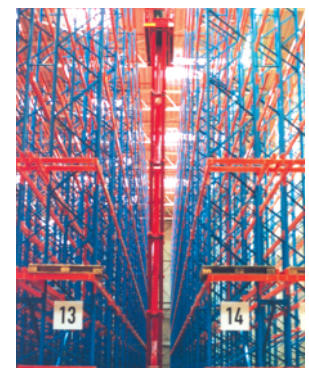

Listen to others. Make others listen to you

IPAF is great for two way communication. You can keep your ear to the ground for opportunities – and speak your mind.

- Membership enlarges your network of potential partners. Customers, competitors, suppliers and interest groups meet at several events during the year, including the IPAF AGM and Summit, and the International Awards for Powered Access (IAPAs).
- Training instructors can also benefit from the annual Professional Development Seminar.
- Tell us what you think. Help shape the legislation and regulations that govern the use of platforms. IPAF's weight and authority allow it to lobby effectively on behalf of its members.

Special events inform – and provide opportunities to network.

Cut costs. Stay informed

Apart from general support on how to become more efficient, IPAF also has specific ways to save money.

- IPAF members can get a 10% discount on rental management software from inspHire.
- The translation service from IPAF's preferred agency will get you quality translations of technical documents and operations manuals at preferential rates.
- Enjoy free access to the broader-based Business Information Service from the Institute of Directors.
- Make the most of a growing number of member services.

Offer training. Increase credibility

As a member you can apply to become an IPAF Approved Training Centre. Apart from being an important source of additional income, this will also position your company as experts in powered access.

- The IPAF programme is the most widely recognised MEWP operator training available – and it will always be in demand from your own customers. You will be able to help them increase their efficiency, safety and productivity.
- You can also take an active role in IPAF's continuous efforts to promote the powered access industry.

IPAF's training programme for operators of mobile elevating work platforms has been certified by TÜV as conforming to ISO 18878.

Everyone who successfully completes the training receives a PAL Card, a Powered Access Licence. This is the most widely held proof of training for platform operators.

Gain trust. Increase business

People trust IPAF services, guidance notes and documentation.

- You can use IPAF's Terms and Conditions of Hire. These provide clear guidance on contracts for platform rental. Users can rely on receiving a fair and industry standard deal.
- The IPAF Rental+ quality mark distinguishes reliable suppliers of access equipment from the others. IPAF Rental+ offers rental companies an independent audit that shows that they meet defined standards.

Equipment rentals insurance from JCB is available at reduced rates for IPAF and IPAF Rental+ members.

IPAF members can access the Business Information Service from the IOD.

IPAF trains over 100,000 operators each year.

Your free IPAF fact sheets

- Powered access exhibition guidelines
- Technical guidance on safety harnesses
- Technical guidance on familiarisation

What the IPAF Rental+ independent audit covers

- Customer service
- Contract terms
- Safety
- Machine inspection
- Staff training

Tim Whiteman, CEO and
Managing Director,
IPAF.

IPAF's achievements. How to benefit from them

IPAF represents the interests of manufacturers, distributors, rental companies, users – in fact anyone involved in powered access.

Since its start in 1983, IPAF is now the leading international organisation working to develop the powered access industry to its full potential – and has become a powerful force for establishing best practice.

Over 600 IPAF approved training centres worldwide train more than 100,000 people each year. Training in the US is managed by IPAF's North American subsidiary, American Work Platform Training Inc.

IPAF has also played a key role in promoting many of the design, safety and testing procedures that are now established in the powered access industry.

IPAF specialist committees

- Mast Climbing Work Platforms
- Training
- International Training Advisory Group
- Manufacturers' Technical
- Strategic Forum for Construction Plant Safety Group – MEWP Safety Group
- IPAF Rental+

All IPAF members can attend our Summit free each year.

The standards and safety committees with which IPAF works

- Various ISO committees
- American ANSI and Canadian CSA standards committees
- The European committee monitoring the implementation of Machinery Directive 2006/42/EC
- The ongoing review of EN 280, the standard regulating the design and manufacture of powered access equipment
- FEM (European Federation of Materials Handling and Storage Equipment)
- British Standards committees BS 8454 and BS 8460
- The ACWAHT forum covering safety at height across industries
- Safety bodies around the world, including the HSE in Britain, Berufsgenossenschaften in Germany, Suva in Switzerland, and ANSI and OSHA in the United States.
