

Leap Like a Salmon - Discounts for IPAF members

We can support you with your learning and development through our online system to capture your continuing professional development.

Who We Are?

We are a people development business that has been established for over 5 years. We have developed a unique and powerful online system that assists our customers with the management of their continuing professional development. This online system supports all learning development effectively as it enables the participants and the organization to be responsible for their own learning and monitor progress. We have been working with the construction sector for a few years now and understand the changing needs for managing your learning and development.

Our system is established and has been validated by a number of organisations including IPAF for audit purposes, although it is not unique to IPAF and can be used for any institute and purpose.

Features

It keeps career development, learning, plans, records, journals, all in one place. It is an eportfolio where you can plan, record, share, gain feedback and collaborate on projects. Additionally, there is an administration feature where you can communicate with your teams about performance, monitor/track progress and set up special interest groups. It is dynamic, online, secure and mobile.
