QUALITY CONTROL AND AUDIT MANAGER

COMPETITIVE SALARY

www.ipaf.org

**Are you passionate about quality, with a sound technical knowledge of quality management, audit procedures and best practice?
Do you have the personal credibility to strengthen IPAF's reputation for quality and integrity across its global reach?**

The International Powered Access Federation (IPAF) is looking for an experienced Quality Control and Audit Manager to join us early in 2019. You will use your wealth of experience to manage both internal and external quality functions including the auditing function that ensures IPAF training maintains its world class quality standard across all its worldwide activities.

ISO 9001 Lead Auditor qualification is essential along with one of the following: NEBOSH General Certificate in Occupational Health & Safety; British Safety Council (BSC) Level 3 Certificate in Occupational Safety & Health; NEBOSH Certificate in Construction or NCRQ Level 6 Certificate in Applied Health & Safety as a minimum. If you have an SSIP Assessor qualification, along with great people management skills, and knowledge of the powered access industry, so much the better.

The successful candidate will be based in our modern offices in Cumbria, reporting to our Director of Operations. Some travel will be required in the role, so you need to be flexible in your approach to working hours.

Interested? Please send a letter of application and CV to IPAF's CEO Tim Whiteman via jobs@ipaf.org. Applications must be received by 31 December 2018, with interviews taking place early in the new year. Further information can be found at www.ipaf.org/jobs
