BENEFITS OF BECOMING AN IPAF SUSTAINING MEMBER

- Your organisation automatically qualifies for IPAF Group Membership worldwide. This means all branches of your company in all countries can become IPAF Sustaining Members at no extra cost. (Each qualifying branch must register directly with IPAF.)
- Your status is acknowledged verbally during the IPAF Annual General Meeting (AGM) and during the IPAF Summit.
- Your company receives a special mention in the IPAF Member Survey (bi-annual).
- You are entitled to display the special IPAF Sustaining Member logo on any of your corporate, marketing, promotional or communication tools.
- Your status is acknowledged in print and digitally in the IPAF Annual report. The report is circulated to all manufacturers and major rental companies worldwide and published in eight languages. (English, Spanish, German, Dutch, French, Italian, Portuguese and Chinese.)

Safety is essential for the sustainability of our industry. And, as the demand for powered access grows so too does the range of manufacturers, products, and services on offer. New projects. New end users. New designers. New technology.

IPAF SUSTAINING MEMBERS SUPPORT IPAF AT AN ENHANCED LEVEL

In such a rapidly developing arena it is vital everyone involved is aware of best practice. Incidents resulting in injury or death reflect negatively on the entire industry. By encouraging a global culture of safety and responsibility such incidents may be avoided.

Your support helps implement and boost safety initiatives at the core of IPAF's aims and objectives, as identified by IPAF members. Much of this activity is non-income generating and includes:

Aside from a visible profile of events, IPAF campaigns 'behind the scenes' where it lobbies for its members and consistently promotes the safe and effective use of powered access.

- Leading and contributing to Standards Committees
- Advising authorities on shaping legislation
- Defining best practices
- Lobbying for better government regulations, at local, national and international level
