## Information Systems Manager

[www.ipaf.org](http://www.ipaf.org)

**Can you evaluate user needs and system functionality, ensuring that IT facilities meet these needs? Are you able to turn data into information, information into insight and insight into business decisions? Do you have strong communications skills and the drive and confidence to manage the relationship of IT support specialists as they work with IPAF to deliver outsourced IT projects for us?**

If you can answer yes to these questions, then you may be the ideal candidate to work with us. The International Powered Access Federation (IPAF) is looking for an experienced Information Systems Manager for a new role within our expanding team. You will use your experience to implement technology improvements and co-ordinate the development of IPAF's IT applications ensuring that IT facilities meet these needs.

The successful applicant will have experience with reporting packages and databases (SQL etc), advanced knowledge and hands on experience in delivering solutions using API as a Service and demonstrable management experience. Previous working knowledge of the responsibilities of a Data Protection Officer and GDPR and knowledge of the powered access industry would be an added benefit.

The successful candidate will be based in our modern offices in Cumbria, reporting to our Head of Finance & IT. We offer first class benefits and the opportunity to work in a wonderful part of the country. Due to our rural location you will need your own transport.

---

Interested? Please send a letter of application and CV to IPAF's CEO Tim Whiteman via [jobs@ipaf.org](mailto:jobs@ipaf.org). Applications must be received by 14 June 2019, with first interviews taking place during June. Further information about the position can be found at [www.ipaf.org/jobs](http://www.ipaf.org/jobs)
