

Promote and enable the safe, effective use of powered access worldwide

THE IPAF RENTAL STANDARD

The IPAF Rental Standard helps to provide your customers with assurance at every stage of the hire/rental process of powered access machines and equipment

ENHANCES
YOUR
CUSTOMERS'
TRUST

What is the IPAF Rental Standard?

The IPAF Rental Standard is a set of guidelines created by industry experts to support companies that rent/hire powered access machines and equipment. The standard outlines how to follow good practice, including compliance with safety requirements and legislation, and how to deliver consistently excellent customer service.

Why meet the IPAF Rental Standard?

You will be providing your customers with the best possible standards, building peace of mind, gaining their trust and encouraging repeat business.

"IPAF has set a standard that will give rental company owners and managers and their end customers peace of mind that they are operating to recognised good practice."

*Martin Wraith,
IPAF Rental+ Scheme Manager*

Key benefits of adopting the IPAF Rental Standard

- ✓ Proves that your company employees are trained to a high level and that quality machines, and equipment are supplied.
- ✓ Peace of mind for you, clients, contractors and end-users.
- ✓ Demonstrates your commitment to good practice and to your safety and legal responsibilities.
- ✓ Paves the way for your future adoption of the IPAF Rental+ Scheme and associated certification, should you choose to do so.

“The IPAF Rental Standard is an excellent step towards later becoming certified as an IPAF Rental+ Scheme member for those rental companies wishing to further demonstrate their professional commitment within the industry.”

*Martin Wraith,
IPAF Rental+ Scheme Manager*
