 site manager in 2000, then moved to
 a management role in 2005. I was
 attracted to the industry because of
 the variety of work and the opportunity
 to learn new things. I also enjoyed
 the challenge of managing a team and
 the fact that it was a growing industry.

What one piece of advice would you give to other women in/ thinking of entering the industry? If Powered access is an industry you are interested in working in, I can assure you that working in this environment is not something you would regret. The progression and learning opportunities are in abundance. The industry is very diverse and inclusive, I have never experienced any discrimination due to my gender, so don't be scared to enter the industry. Everyone is accepted.
