

MEWP Compliance – A Journey

IPAF ELEVATION 2024

7TH NOVEMBER 2024

Every Journey Begins With A Single Step

STEP 1:

WHY DO WE NEED MEWP COMPLIANCE?

Because it's the law!

Thank you, enjoy the rest of the conference

THE POWER OF EXPERIENCE

LAINGOROURKE.COM

Thank you

If only it was that simple

As the great philosopher, Agent K once said,

**“A person is smart.
People are dumb,
panicky, dangerous
animals!”**

Every Journey Begins With A Single Step

STEP 2:

WHAT LAWS AFFECT MEWP USE?

So, what laws do we need to be aware of when using MEWPs?

- PUWER 1998
 - LOLER 1998
 - Work at Height Regs 2005
 - MHSaW Regs 1999
 - PPE Regs (amended) 2022
 - and...
 - **HaSaW(etc)A 1974**
- PUWER, like LOLER and Management of Health and Safety at Work Regulations 1999 are designed to work alongside the HaSaW(etc)A 1974 where employer's and employee's duties remain unchanged.

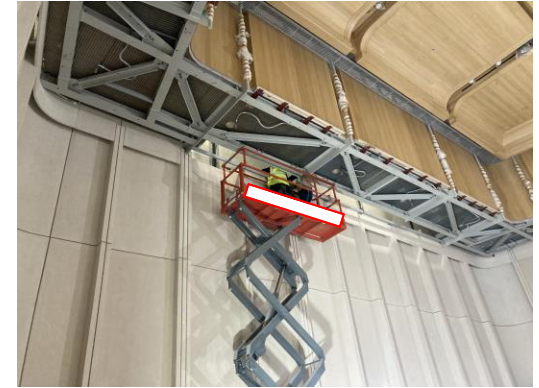

Every Journey Begins With A Single Step

STEP 3:
PROPER PLANNING

What could go wrong?

A case study

Danger close!

Don't forget to
report events on
the IPAF
accident portal.

(Yes, this was a
near miss)

MEWPS FITTED WITH EXTENSION DECKS

TOOLBOX TALK

Mobile Elevating Work Platforms (MEWPs) Category 3a (e.g., scissor lifts) are sometimes fitted with extension decks, these can be single, or double deck extensions. The purpose of an extension deck is to provide additional horizontal outreach beyond the main deck of the platform.

WHO NEEDS TO KNOW?

This Toolbox Talk applies to all individuals involved with the safe use of a MEWP, including:

- Users/hirers
- Managers and supervisors
- Operators
- Nominated ground control rescue persons

HOW DO YOU REDUCE THE RISK?

- The Rescue Plan should consider the recovery of a MEWP if the deck is extended over a structure
- Where possible retract any extended deck(s) before lowering the platform or driving the MEWP
- Never exceed the maximum safe working load (people, tools and equipment) allowed on the extension deck. This information can be found on the extension deck decal and in the MEWP operators
