The International Powered Access Federation (IPAF) promotes and enables the safe and effective use of powered access equipment worldwide in the widest sense – through providing technical advice and information; by influencing and interpreting legislation and standards; and via its safety initiatives and training programmes.

IPAF is a not-for-profit organisation owned by its members, which include manufacturers, rental companies, distributors, contractors and users of powered access. IPAF has members in 83 countries, who represent the majority of the MEWP rental fleet and manufacturers worldwide.

IPAF AND ITS PEOPLE

Promote and enable the safe, effective use of powered access worldwide

Since 1983, IPAF has been at the forefront of promoting and enabling safety in the powered access industry.

At the heart of our mission is working closely with industry leaders and professionals worldwide to drive progress in powered access safety. We'd like to thank our dedicated staff, board and committee members, volunteers, members and instructors who have worked tirelessly alongside operators and managers on the frontlines to build a global movement committed to safe and effective equipment use.

IPAF COUNCIL

The IPAF Council is the federation's governing body, consisting of the Presidential Team and Board, Country Council Chairs, Committee Chairs, and elected members.

PRESIDENTIAL TEAM AND BOARD

IPAF President	Karel Huijser - The Orbio Solution
IPAF Deputy President	Kai Schliephake - Partnerlift
IPAF Vice President	Pedro Torres - Alayan Rentals
IPAF Immediate Past President	Karin Godenhielm - Dinolift
CEO & Managing Director	Peter Douglas - IPAF
Director	Ben Hirst - Horizon Platforms
Director	Julie Houston Smyth - LOLEX Ltd
Director	Jacco de Kluijver - Genie
Director	Sérgio Kariya - MILLS
Director	Rahul Seth - Sudhir Power Limited

COUNTRY COUNCIL CHAIRS

Brazilian Country Council	Marcelo Racca - Haulotte Do Brasil
China Regional Council	Halian Huang - Xiamen Highflyer Rental Co.Ltd
Asia Regional Council	Alex Tan - Aerial Global Sdn Bhd
Irish Council	David Meeke - Balloo Hire Centres
Italian Country Council	Nicola Pontini - JLG
Spanish Country Council	Bernardo Gómez - Maxber Group
Middle East Regional Council	Robert Cavaleri - Manlift Group
UK Country Council	Jonathan Till - GTAccess
North American Regional Council	Brian Clark - Sunbelt Rentals Inc
Latin American Regional Council	Ramón Padrón - ISI Rentas

COMMITTEE CHAIRS

IPAF Technical Committee	Neil Ashton - APS Manufacturers
IPAF Mast Climbing Work Platforms Committee (UK)	Steve Mcewan - BFT
IPAF Mast Climbing Work Platforms Committee (International)	Cameron Reid - Alimak Group
IPAF Training Committee	Jim Quirke - Powered Licence Training Ltd
IPAF Rental+ Committee	Mark Robinson - Premier Platforms Ltd
IPAF International Safety Committee	Robert Cavaleri - Manlift Group

ELECTED MEMBERS

Henry Zhang	Zoomlion Intelligent Access Machinery Co., Ltd.
Arne Dirckinck-Holmfeld	PB Liftechnik GmbH
Enrique García Delgado	Socage
Paul Rankin	Rapid Access
Will Temple	Sunbelt Rentals Limited

IPAF SUSTAINING MEMBERS

Sustaining Membership is a category of IPAF membership designed to recognise and sustain IPAF's strategic initiatives and overall contribution to improving safety and productivity in powered access worldwide. Our esteemed Sustaining Members support IPAF at an advanced level by continuously collaborating, leveraging expertise and resources to pioneer advancements in safety protocols and industry best practices.

We would also like to extend our sincere thanks to our event sponsors, partners and supporters. Without your support, many of our events simply wouldn't be possible.

With special thanks to our Sustaining Members:

Karel Huijser

IPAF President

It has been a great honour to serve as President of IPAF over the past two years – time that has passed remarkably quickly because of the privilege and enjoyment of the role.

As my term comes to an end, I look forward to supporting the continued progress of the federation under new leadership. I would like to wish Kai every success as he begins his two-year term as President, and I am confident that IPAF will continue to go from strength to strength.

One of the most encouraging developments during my presidency has been the growing momentum behind storytelling as a powerful tool for improving safety. While this approach is gaining traction, it has not yet become fully normalised across the industry. Too many accidents still occur without lessons being shared widely enough. We must continue to tell our stories, learn from one another, and reinforce the belief that safety is everyone's responsibility.

IPAF's global growth has also been a defining feature of the past two years. For the first time in the federation's history, revenue generated outside the UK has exceeded UK revenue. This milestone is a clear sign of the global momentum that IPAF has built over many years and reflects the universal relevance of our mission. Safety is not limited by borders – it is a global belief, shared by our members worldwide – and IPAF is increasingly well positioned to support safer powered access operations across every region we serve.

“Too many accidents still occur without lessons being shared widely enough. We must continue to tell our stories, learn from one another, and reinforce the belief that safety is everyone's responsibility.”

Peter Douglas

Chief Executive and Managing Director

2025 was a difficult year for the IPAF training programme. Five years on from the COVID-19 lockdowns, fewer operators renewed their PAL Cards, as training was not permitted for parts of 2020. IPAF members trained 228,796 people during 2025, which was 1,568 less than in 2024.

Despite this, and despite global economic uncertainty, our progress in all other areas has continued at pace. IPAF membership grew by a record net 157 during the year, bringing total membership to 1,975 across 83 countries. Bangladesh and Guatemala became the latest territories to join IPAF, while Iraq dropped off.

IPAF's Elevation events continue to expand in all territories. In addition, two new events were added to our calendar in 2025 – in Turkey and India – further strengthening our global presence.

Attendance at these regional events reached 2,105. Our annual IPAF Summit and International Awards for Powered Access (IAPAs) took place in Dublin, and was another sell-out event, attracting 509 attendees.

The four regions that the board asked us to focus on in 2024 continued to show solid progress during 2025. There was a huge increase in training in North America, China and Saudi Arabia, and despite a slight reduction in India, our training numbers across the four regions grew by 21%. Even more impressive was the membership numbers; they grew by a net 35 in these regions, with North America leading the way with a net 19 membership growth over 2024.

Although overall training numbers were below expectations, IPAF training was delivered in 54 countries during the year, with 80 new training centres added. This brings the total to 728 IPAF training centres across 62 countries worldwide.

IPAF's digitisation drive is progressing rapidly. Since its launch in 2021, the ePAL app reached a milestone in August 2025, surpassing 1 million users across 205 countries globally. Of those trained in 2025, 72% opted for a digital licence via ePAL, rising from 66% in 2024 – marking a significant step towards full digital adoption.

Through our accident reporting portal, we received 817 accident reports from 36 countries in 2025. While this is a significant number, it is less than was reported in 2024. While part of me wants to believe there were a lot less incidents, it is more likely that some incidents are not being reported to IPAF.

Please report all known incidents and accidents to us via the Accident Reporting Portal; it really does help improve safety in our industry. The data we receive is analysed by our Safety Committee, and informs improvements in training, guidance, and safety campaigns.

“ The federation reached a historic milestone in 2025 – for the first time in its history, more than half of IPAF's revenue was generated outside the UK, with 51% of overall revenue coming from overseas. ”

One example is our digital Global Safety Report, which is shaped by the data, and has already been viewed more than 5,300 times in six months. Another example is the 2025 annual safety campaign, *Stop Overturns!*, launched in March 2025 in Dublin, which highlighted a leading cause of serious accidents and fatalities in our industry. Informed by data from the portal, this campaign document has received more than 14,000 views across 105 countries.

IPAF's global reach continues to grow, and the federation reached a historic milestone in 2025 – for the first time in its history, more than half of IPAF's revenue was generated outside the UK, with 51% of overall revenue coming from overseas.

As of the end of 2025, 39% of all training applications, 69% of all members and 69% of all active training centres are from outside the UK.

Finally, I would like to say a huge thank you to the many hundreds of volunteer members. Whether you serve on committees, workgroups, councils, the board, or as event speakers, your dedication is invaluable. This industry is so special in that respect, and with your contributions, you enable IPAF to continue to deliver improvements in our wonderful industry for the benefit of all.

Thank you from me and the IPAF team.

Our country and regional councils work on behalf of our members around the world to represent their interests and champion safety in our industry. In 2025, here's what happened...

NORTH AMERICAN REGIONAL COUNCIL

Under the leadership of Chair Brian Clark (Sunbelt Rentals), the **North America Regional Council** held six virtual meetings and one in-person meeting, focused on three key priorities: strengthening relationships with associations and regulators, promoting awareness and compliance with ANSI and CSA standards, and delivering a high-impact Working at Height Conference & Awards.

During the year, we established new association agreements with the Canadian Rental Association (CRA) and the Voluntary Protection Programs Participants' Association (VPPPA) and delivered seven educational webinars centred on industry standards compliance.

The Working at Height Conference & Awards exceeded expectations, achieving more than a 30% increase in attendance year over year. We also launched new fee-based training options, expanding access to IPAF's eLearning theory courses beyond the Training Centre programme. These initiatives drove the largest annual membership growth in the region – clear evidence that the council's focus is delivering real value to the industry.

BRAZILIAN COUNTRY COUNCIL

The **Brazilian Country Council** held three meetings during the year, focusing on key regulatory, industry and engagement priorities. A major area of discussion was the update of the Brazilian regulation ABNT, ensuring alignment with evolving national requirements and international best practice.

Planning was also progressed for IPAF ElevAÇÃO Brazil, IPAF's flagship industry event, alongside coordinated participation in major external exhibitions including Brazil Equipos Show, Expo Proteção and Analoc Rental Show, strengthening IPAF's visibility and industry engagement in the region.

UK COUNTRY COUNCIL

The **UK Country Council** held three meetings during 2025 and successfully completed its elections, bringing the council to full capacity. The council played an active role in proposing improvements to IPAF's Accident Reporting Portal, aimed at encouraging higher levels of incident reporting across the industry. Member growth was a significant milestone, with UK membership surpassing 600 for the first time, supported by more than 80 new members joining during the year. At Vertikal Days, the council supported the launch of two new sustainability training pathways, reinforcing IPAF's commitment to environmental responsibility. A new guidance document, *The Principles of MEWP Recovery & Rescue*, was also launched at the event. Throughout the year, continued support for contractors and health and safety days remained a key priority. The council also supported members in preparing for the introduction of two new British Standards – BS 8460 and BS 7981 – both of which will have implications for IPAF training, guidance and industry practice.

ITALIAN COUNTRY COUNCIL

The **Italian INIC & TWG Council** met three times during the year, in March, June and November, hosted by Haulotte Italia, Zoomlion Italia and via online meetings. The meetings reflected strong cohesion and collaboration among council members. Key discussions focused on the significant decline in training activity during the year and the implications of new Italian training regulations introduced on 17 April 2025, which restricted the delivery of theoretical training via eLearning. The council considered how best to adapt to these changes while continuing to support members and maintain training standards. Strategic planning was also a priority, including confirmation of IPAF ANCH'IO 2026, to be held at Villa Baiana Montana, Franciacorta, on 21–22 May 2026. In addition, the Council confirmed IPAF's participation at SAMOTER 2026, Ambiente Lavoro in Bologna, and Safety Expo in Bergamo, ensuring continued engagement with the wider Italian safety and access community.

IRISH COUNCIL

Engagement with the **Irish Council** increased during the year, with over 100 industry professionals attending council and member meetings held in Kildare (May) and Cork (October). Attendance levels reflected growing new member interest in IPAF governance, training development, and safety initiatives within the region.

At the May meeting, council members approved a request from contractor members for IPAF to develop and introduce a new Spotter's course. Following a review of the proposal and existing course content, development work by IPAF was approximately 85% complete by December 2025, with completion targeted for Q1 2026.

Membership growth remained strong, with the region now having over 100 members, including 17 contractor members operating across a broad range of construction sectors. This diversity has supported wider adoption of IPAF training and strengthened engagement across multiple sectors of the construction industry. In support of this growth, seven new IPAF training centres were opened across the region during the year, increasing training capacity and improving access for companies in various industries.

ASIA REGIONAL COUNCIL

The IPAF **Asia Regional Council** convened twice during the year to guide the planning and direction of the inaugural IPAF Asia Conference 2025 in South Korea. Council members played an integral role in shaping a more dynamic and impactful programme, moving away from a traditional conference format toward sessions focused on strategic industry priorities. In conjunction with the conference, council members from Hong Kong and Singapore organised an informal joint visit to the Sinoboom and LGMG depots in Seoul. This independently arranged activity was open to all IPAF members in the region and provided valuable opportunities for engagement and knowledge sharing.

Across Asia, several key developments further advanced IPAF's safety and training objectives. In Malaysia, the national Safe Use Guidelines – first adapted from ISO 18893 in 2017 – entered a comprehensive revision following the standard's 2024 update. The review is being conducted by a technical committee made up of key authorities, IPAF, and a selected group of IPAF members who volunteered to take part.

Korea's successful hosting of IPAF Asia Conference, drawing more than 180 registrations, marked a major milestone for the region. Taiwan held its first in-person members' meeting to discuss future direction and regional priorities. In Hong Kong, IPAF strengthened its collaboration with the Occupational Safety & Health Council to expand MEWP training and promote safe and effective powered access practices. Meanwhile, in Singapore, IPAF delivered a seminar featuring Training Manager Paul Roddis, who highlighted advancements in MEWP operator competency through innovative training approaches, complemented by a well-attended Professional Development Seminar (PDS) for instructors from both Singapore and Malaysia.

NEW CHINA REGIONAL COUNCIL

The IPAF **China Regional Council (ICRC)** was formally established in February 2025 as a key milestone in IPAF's localisation strategy for China. The council brings together leading IPAF member companies to address the specific safety challenges of China's powered access sector. Its purpose is to provide a central collaborative platform to advance the localisation of safety standards, professional training and best practices, supporting the safe and effective use of powered access equipment nationwide. The inaugural council includes representatives from 12 IPAF member companies spanning manufacturers, national and local rental businesses. Ms Huang of Xiamen HighFlyer Rental was elected Chairperson, ensuring strong alignment with rental and end-user needs, with Mr Guo of SINOBOOM appointed Vice-Chairperson, bringing a manufacturing and innovation perspective.

Key activities in 2025 included its inaugural plenary meeting in Shanghai, the launch of the "MEWP Safety Starts with Me" China Safety Campaign, technical discussions on emerging risks linked to electrification and intelligent equipment, and year-end planning focused on greater engagement with contractors and end users. Beyond internal collaboration, the council has actively strengthened international and regional links by organising a Chinese delegation to the IPAF Asia Conference in South Korea and leading industry exchanges in Hong Kong.

Looking ahead to 2026, the ICRC will continue to expand its influence through regular plenary meetings, targeted safety advocacy tools, further localisation of IPAF training, and thematic seminars aimed at building wider industry consensus and embedding IPAF safety standards across China's powered access market.

NEW LATIN AMERICAN REGIONAL COUNCIL

In 2025, **Latin America** experienced remarkable growth. One of the key milestones was issuing more than 1,000 IPAF licences in Colombia and Mexico within a single year, marking an unprecedented achievement for the region.

Across Latin America, membership, training, and the number of accredited Training Centres have all seen significant expansion. This momentum led to the establishment of the IPAF Latin America Regional Council in August 2025, reinforcing IPAF's presence and commitment to the region.

Additionally, more than 50 new instructors have been trained this year, further driving the reach and recognition of IPAF's high-quality education standards. The growing adoption of IPAF training across Latin American countries demonstrates a deeper industry commitment to safety, professionalism, and continuous improvement.

Furthermore, IPAF ELEVANDO, held in November at Parque Fundidora in Monterrey, continues to be a key industry event for the region, expanding its influence and impact year after year.

SPANISH COUNTRY COUNCIL

During 2025, the **Spanish Country Council** remained active, holding four meetings – two in person and two remotely – to monitor and address key strategic issues affecting the sector. Council elections were also completed during the year, resulting in some changes to its composition. Following the elections, Bernardo Gómez Velasco (Maxber) was appointed President and David Gómez Garcia (Genie) Vice President.

Key areas of focus included the revision of the IPAF manual, particularly new requirements applicable to instructors, and the review and definition of criteria for dual training centres.

These priorities shaped the council's work throughout the year and reinforced its ongoing commitment to quality, safety, and continuous improvement in training delivery.

IPAF Elevando España 2025 also took place in Valencia, bringing together professionals, instructors, rental companies, manufacturers and H&S leaders. Attendance exceeded expectations, confirming the sector's growing interest in new training developments, safety campaigns and collaborative initiatives.

TRAINING APPLICATIONS

IPAF reported turnover of £9.39m for FY2025 (approximately €10.7m / US\$12.5m), representing a decrease of £29.9k (-0.3%) compared with FY2024.

The principal challenge during the year was a reduction in training volumes, driven by lower operator renewals linked to the residual impact of the COVID-19 pandemic five years ago. As a result, training income was £36k below FY2024 levels. Given that training activity accounts for approximately 80% of total income, this underperformance had a material impact on overall revenue delivery.

In response to the income shortfall, management undertook a focused review and challenge of expenditure across the organisation. This approach ensured that member funds were deployed effectively in support of the federation's strategic objectives and financial performance targets were protected despite revenue pressures.

For FY2025, IPAF delivered a surplus of £211k, representing a 42% year-on-year increase. This outcome reflects disciplined cost management and prudent financial oversight in the context of marginally reduced turnover.

MEMBERSHIP GROWTH

The total membership at the end of 2025 was 1,975, which was an impressive 157 net increase on 2024, representing 8.6% growth, with 282 new members and 125 lost members throughout the year.

The IPAF footprint extended to two addition countries in the year, which were Guatemala and Bangladesh, finishing the year with membership in 83 countries.

TRAINING CENTRES

In 2025, 80 new Training Centres joined IPAF, leading to a total of 728 (7.7% growth on 2024), with 616 (85%) actively carrying out training in the last 12 months. IPAF training now takes place in 62 territories, with the addition of Greece in 2025.

TRAINING NUMBERS & DIGITAL LICENSING

The number of people undertaking IPAF training decreased during 2025, with 228,796 people successfully completing a course, a decrease of 0.7% on 2024.

The training numbers outside the UK saw a 10.1% year-on-year increase and now contribute to 39% of all applications, compared to 35% in 2024.

The percentage split between digital licences and physical licences also saw an increase in the year, with 71.8% of all licences being sent out as digital only, compared to 66.3% in 2024.

Despite the income challenges in 2025, the KPIs reflect strong member growth, stable training volumes with significant growth overseas, increasing digital adoption and an expanding and highly active training network, which should lay the foundation for a strong 2026.

FINANCIAL & REGULATORY OVERVIEW

The International Powered Access Federation (IPAF) is a registered Society under the UK's Co-operative and Community Benefit Societies Act 2014, regulated by the UK Financial Conduct Authority.

The Act came into force on 1st August 2014 and supersedes the Industrial and Provident Societies Act 1965. IPAF operates as a not-for-profit organisation which is obliged to re-invest all surpluses in furthering the aims of the organisation as defined by the members.

The accounts are audited by Azets Audit Services and are presented at the Annual General Meeting for approval.

2025 was another year of significant change in IPAF's digital infrastructure. Alongside continuous enhancements to newly launched systems, three major milestones were reached.

1 Migration of all financial management to a leading cloud-based system.

This move will allow significant process improvement and automation in 2026 as well as providing a more stable basis for financial growth.

1

2 Implementation of a new cloud-based audit management system.

The old system carried significant risk for the organisation due to its age and fragility. This risk has now been mitigated, and the new system provides an excellent platform to add further enhancements for increased efficiency and effectiveness in audit operations.

2

3 Development and trialling of software for the automated processing of licence applications.

Following the implementation of the new system for course bookings and application management in 2024, 2025 saw the next step in upgrading our application and licence system, with the introduction of automatically processed applications. This means that around 70% of licence applications no longer need to be manually reviewed and approved.

3

In addition to these key projects, we have upgraded our data management, data protection and cyber security systems and processes. As a result of this, IPAF's Microsoft Cyber Security rating has increased significantly.

AUDIT UPDATE

The Audit Department plays a critical role in ensuring the integrity of the IPAF PAL Card across our international training programme.

In 2025, the department achieved a significant milestone with the successful launch of a new audit system designed to enhance efficiency, transparency, and value for our members.

LAUNCH OF THE NEW AUDIT SYSTEM – CLUETEC

- **User-friendly interface:** Simplified navigation and real-time access to reports.
- **Greater transparency:** Clearer tracking of audit progress and findings.
- **Enhanced support:** Integrated video short guides throughout the audit process accessible through the Support Tab.

LOOKING AHEAD

In 2026, the Audit Department will continue to strengthen its role as a cornerstone of governance and compliance. Building on the success of the new audit system, our priorities include:

- **Expanded Digital Capabilities**
We will enhance the audit platform with advanced analytics and predictive risk assessment tools, enabling early identification of potential compliance issues.
- **Remote and Hybrid Auditing**
We will be exploring auditing solutions to enhance global reach and cost efficiency, without compromising audit rigour or quality.
- **Data-Driven Insights**
Leveraging audit data for trend analysis will allow us to provide actionable insights to management and members, improving decision-making and risk mitigation.
- **Continuous Improvement and Training**
Ongoing auditor training and member engagement will remain a priority to ensure consistent application of standards and best practices worldwide.

“ The department achieved a significant milestone with the successful launch of a new audit system designed to enhance efficiency, transparency, and value for our members. ”

QUALITY & COMPLIANCE UPDATE

In 2025, IPAF maintained its certification to ISO 9001:2015 and ISO 18878:2013, reaffirming its commitment to quality and safety.

The organisation continues to undergo audits by external certification bodies, including Safety Schemes in Procurement (SSIP) in the UK and Bureau Veritas in the UK and Spain. Notably, our most recent ISO 9001:2015 external audit resulted in zero non-conformities and included a positive observation: “It was evident throughout the audit that the organisation uses the QMS to help promote continuous improvement to a high level.”

To support ongoing improvement, IPAF operates a comprehensive risk management framework that actively monitors internal and external challenges.

Internal audit activity was further strengthened during the year, playing a vital role in evaluating compliance, identifying opportunities for improvement, and ensuring alignment with IPAF’s quality objectives.

A major development in 2025 was the global launch of a new Document Management System for Training Centres. This system enhances the clarity, flexibility, and accuracy of communications about IPAF’s training programme requirements, while streamlining the distribution of essential documentation and support materials across the network.

MEWP OPERATOR TRAINING COURSE

2025 marked a milestone for IPAF training, with the new and improved MEWP Operator Training course earning international recognition. IPAF, together with digital learning provider Sponge, won four Brandon Hall Group™ HCM Excellence Awards® for the course, receiving Gold awards for Best Advance in Learning Management Technology for Compliance Training, Best Compliance Training, and Best Unique or Innovative Learning and Development Programme, as well as a Silver for Best Use of Blended Learning.

The quadruple award win highlights the transformation of IPAF's longest-standing, globally recognised MEWP Operator course, which combines theory with practical training on safety and efficiency and is chosen by over 230,000 MEWP operators worldwide each year. eLearning satisfaction ratings have improved across the board, and the course has already been translated into Italian, German and French with translations in progress for Portuguese, Dutch, and Spanish.

NEW MEWP SPOTTER COURSE

In response to feedback from contractors, IPAF has developed a dedicated training solution for MEWP spotters – the personnel who assist and guide MEWP operators from the ground. A MEWP spotter plays a critical safety role, providing guidance and warnings about potential hazards when the operator's visibility is limited or when hazards such as moving traffic, pedestrians, or overhead obstructions are present. The role includes observing the MEWP and its surroundings, communicating with the operator, and, where necessary, initiating emergency procedures.

Six major contractors collaborated with IPAF, sharing existing training and information to ensure the new course meets industry needs and provides continuity across sites, standardising best practice and demonstrating the quality and value of the training. A working group from IPAF's Training Committee is partnering with Optical 3D, the creators of the 3D images and videos used in the Operator course, to develop an engaging, easy-to-understand, and memorable programme. Contractors continue to be consulted on key decisions and will participate in the final review before the course goes live.

The course will be available in eLearning format, making it accessible on a wide range of devices. It is designed to take approximately 2½ hours, with successful candidates certified for five years, and the qualification recorded on the ePAL App.

MEWP SPOTTER TRAINING COVERS:

- Key responsibilities of a MEWP Spotter
- Legal duties
- Introduction to MEWPs
- Communication and signalling
- Hazard awareness
- Planning and control measures
- Practical guidance and manoeuvring
- Pre-operation checks

TRAINING AND ACCREDITATION

In 2025, IPAF expanded Mast Climbing Work Platform (MCWP) and Construction Hoist (CH) training and accreditation across several regions. In Spain, a dedicated session was delivered at IPAF Elevando España, where RESA was introduced as the first IPAF MCWP & Hoist Training Centre in the country. A global Professional Development Seminar (PDS), held in March by webinar, attracted strong participation from instructors and training centre staff worldwide, reinforcing engagement with IPAF programmes and schemes. In the Middle East, significant milestones were achieved with the accreditation of the first MCWP and CH trainers and the launch of the first IPAF Training Centres in Saudi Arabia and Bahrain. A regional PDS in Saudi Arabia provided instructors and centres with updates on technical developments and scheme implementation. In Europe, further growth was recorded with the opening of new Training Centres in Italy and Switzerland, where the first trainers for both MCWPs and CHs were trained on site.

KNOWLEDGE SHARING AND PROFESSIONAL DEVELOPMENT

IPAF continued to support professional development through targeted knowledge-sharing initiatives. A high-engagement MCWP webinar held in April brought together expert speakers to address safe and efficient operation. This was followed in October by a CH webinar, which attracted strong attendance and featured contributions from industry specialists.

INDUSTRY OUTREACH AND EVENTS

Industry engagement remained a key focus throughout the year. At World of Concrete in Las Vegas, IPAF hosted a dedicated MCWP and construction hoist presence, enabling productive discussions with existing and prospective members in the North American market. The IPAF Summit in Dublin further highlighted these sectors, with a dedicated MCWP and CH breakout session.

WORKING GROUPS AND COLLABORATION

Collaboration through working groups and committees strengthened alignment between regional and international stakeholders. The UK & Ireland MCWP & Hoist Working Group met twice during the year and held a joint meeting with the MCWP International Committee in Dublin. Cooperation with the Construction Hoist Interest Group (CHIG) continued to develop, with reciprocal participation in meetings enhancing collaboration, knowledge exchange, and alignment on industry priorities.

STANDARDS AND SCHEMES

Progress on standards and schemes formed an important part of IPAF's work in 2025. The IPAF Rental Standard and IPAF Rental+ were consistently presented and discussed at MCWP and CH meetings, with member uptake continuing to grow. In the UK and Ireland, discussions commenced on the potential introduction of IPAF Rental+ as a mandatory requirement for MCWP and CH members. Internationally, IPAF contributed to standards development in Australia, providing technical input to the national MCWP standards committee and supporting the newly established Scaffolding Association Australia through the review of guidance materials and technical advice.

In 2025, IPAF Rental+ continued to grow as a globally recognised benchmark for safety, quality, and operational excellence in the powered access rental sector.

A key development during the year was the introduction of the Cluetec audit system, which has significantly improved the audit process by making the uploading and management of evidence simpler and more efficient for members undergoing IPAF Rental+ audits worldwide.

Ireland reached a major milestone in 2025, with 100% of Irish rental members now IPAF Rental+ certified. There was also a notable increase in the number of MCWP and CH members achieving certification, reflecting growing awareness and appreciation of the benefits of the scheme across these sectors.

In the UK and Ireland, eight new rental companies achieved IPAF Rental+ certification during the year, demonstrating continued expansion of the scheme and reinforcing its value as an industry standard.

THE POWERED ACCESS INDUSTRY TRUST (PAINT)

During Q2 2025, IPAF launched the Powered Access Industry Trust (PAINT), a new charitable initiative created in partnership with Weston Park Cancer Charity. PAINT supports global cancer research at the Weston Park Cancer Clinical Trials Centre.

The scheme was established by Martin Wraith, IPAF Rental+ Scheme Manager, and was initially aimed at rental companies wishing to nominate a piece of equipment from their fleet as a dedicated "PAINT machine". Each time the machine is hired, a proportion of the rental revenue can be donated to Weston Park Cancer Charity.

By the end of 2025, the scheme had raised just under £4,000, through a combination of rental income and training revenue.

IPAF would like to thank all companies that have already signed up to support PAINT.

To find out how you can get involved visit:

[PAINT](#)

Throughout 2025, IPAF's Safety & Technical team continued to play a central role in improving safety standards, developing guidance, and supporting members worldwide through practical resources, collaboration, and technical leadership.

A strong programme of technical guidance was delivered during the year, addressing key risk areas and operational challenges. New and revised guidance included documents on the assessment of ground conditions and supporting structures, MEWP familiarisation (F1 revision), the principles of MEWP recovery and rescue, remounting MEWPs onto vehicle chassis, and safe recovery and rescue planning. These publications support safe decision-making across the lifecycle of MEWP use.

The team also released a wide range of Toolbox Talks and Andy Access posters, reinforcing critical safety messages in an accessible format. Topics covered included rescue planning, ground conditions, pre-use inspections, avoiding overhead obstructions, MEWP familiarisation, and the importance of safety systems.

These resources continue to be widely used on sites to support day-to-day safety conversations. In 2025, IPAF published its Global Safety Report, which remains a cornerstone of evidence-based safety improvement. The report draws on accident data shared through IPAF's reporting portal and helps inform training, guidance, and safety campaigns worldwide.

The 2025 *Stop Overturms!* safety campaign highlighted one of the leading causes of serious accidents and fatalities in the powered access industry, while a US mini campaign, *How to Stay Safe on or Near Roadways*, addressed region-specific risks.

IPAF remained actively involved in international and national standards development, contributing to multiple committees and working groups, including CEN, ISO, and Standards Australia.

This work ensures IPAF members' experience is reflected in evolving standards such as BS 8460:2025, BS 7981:2025, EN 1495, and revisions to Australian standards for MEWPs and hoists.

Collaboration continued to be a key focus, with strengthened relationships including reciprocal membership with the Scaffolding Association Australia and joint safety resources developed with the Elevating Work Platform Association (EWPA), such as shared Toolbox Talks and Andy Access posters.

Safety & Technical activity also supported membership growth, with seven new members and training centres joining IPAF through engagement with safety and technical initiatives.

During 2025, the team presented at numerous industry events and conferences globally, including the IPAF Summit & IAPAs in Dublin, Working at Conference & Awards event in the USA, IPAF Asia Conference, and presentations to Tier 1 contractors and regulators in Australia, helping to promote best practice and raise awareness of IPAF guidance. Engagement through committees and working groups remained strong, with regular meetings of the Manufacturers' Technical Committee (MTC), International Safety Committee (ISC), and newly formed groups focused on component suppliers and MCWPs and construction hoists.

Finally, the Safety & Technical team contributed to the international webinar series, covering topics such as the safe use of construction hoists and supporting safety professionals, extending IPAF's reach and providing accessible learning opportunities for members worldwide.

KEY METRICS

10 Industry webinars and major events supported or presented at worldwide

4 New Technical Guidance documents published or revised

2 Share Your Story safety videos created

7 Toolbox Talks released covering critical operational risks

3 Andy Access safety posters launched

1 Global Safety Report published (2025 edition)

7 Committees and working group meetings attended

2 Safety campaigns delivered globally and regionally

15 Standards Committees attended

Throughout 2025, IPAF continued to strengthen its global presence and engagement with members through a significantly expanded programme of events, communications and digital activity.

We started the year with 1,818 members and closed with 1,975, an 8.6% increase. Notable growth was seen in North America, with a 21% increase in membership in 2025.

Global retention rate was 93%, demonstrating continued success of IPAF's initiatives to enhance member experiences and strengthen engagement.

WEBINARS

IPAF delivered five international webinars during 2025, attracting a total of 323 attendees from 44 countries, further extending access to IPAF knowledge, guidance and best practice regardless of location.

COMMUNICATIONS AND MEDIA

The communications team produced and distributed **110 news stories and press releases** throughout the year. These were translated into all core languages, shared across all IPAF's global channels and distributed to the international press, supporting consistent messaging and increased awareness of IPAF activity. Looking ahead to 2026, members can expect an increase in thought leadership content, further strengthening IPAF's role as the leading voice in powered access safety, training and industry best practice.

DIGITAL AND SOCIAL MEDIA

IPAF's social media presence continued to grow strongly in 2025. By the end of the year, IPAF had **34.7k followers**, representing a **33% increase from 2024**, with **4.8k new followers**. Across LinkedIn, Facebook and X, IPAF achieved **45.7k engagements**, reflecting increased interaction with content and campaigns. The total audience for IPAF content reached **47.7k**, an **84% increase** compared with 2024.

Stay informed on the latest news and updates from IPAF by connecting with our official social media channels, including our regional LinkedIn pages.

EVENTS AND ENGAGEMENT

In 2025, IPAF attended or organised 146 events worldwide, representing a 47% increase compared with 2024. Highlights included a record 509 registered attendees at the IPAF Summit and IAPAs in Dublin, reflecting strong international participation and industry engagement.

The year also marked several important milestones in IPAF's global outreach. IPAF held its first member event in Turkey, delivered in collaboration with Platformder, and hosted the first IPAF Elevation India in Mumbai, which attracted 151 attendees. These events demonstrated IPAF's continued commitment to supporting members in emerging and growing markets.

In addition, IPAF participated in 35 international tradeshows, ensuring strong visibility and direct engagement with members and stakeholders across key regions.

Customer Services has now completed its first full year of operation since being established in 2024.

In 2025, the department cemented its place as the first point of contact across all IPAF's communication channels. We have continued to grow our knowledge base, with the aim of resolving more queries at the first point of contact. Customer Services now provides advice on a wide range of IPAF services, from how to use our systems and licence queries to IPAF standards for training courses.

IMPROVED CONTACT CHANNELS

We have increased the number of ways you can contact IPAF.

Webchat: Our Webchat feature launched in 2025 and is available on both the IPAF website and IPAF portal, available in all IPAF core languages. Webchat has proved popular with over 4,000 successful conversations taking place with members and candidates. This easy-to-access, direct connection to our Customer Services team means we can support customers faster and more efficiently.

Facebook Messenger: To improve response times, this channel is now managed within the Customer Services team.

WHAT ARE WE PLANNING FOR 2026?

Now Customer Services is firmly established, we are exploring ways to provide support that is more personalised to different regions. This expansion of Customer Services will help us to provide tailored support and to manage our responses more effectively across all time zones.

JANUARY

▶ IPAF Mandates IPAF Rental+ Certification Across the Island of Ireland

IPAF announced that IPAF Rental+ certification was mandatory for all IPAF rental company members operating across the island of Ireland.

▶ IPAF Releases Updated MEWP Operator Training Course

IPAF released a comprehensive update to its globally recognised MEWP Operator Training Course.

FEBRUARY

▶ Two New Training Centres Open in Greece

Two new training centres opened in Greece, with the aim of supporting the country in its efforts to close the gap in occupational safety compared to European standards.

▶ IPAF China Regional Council Constituted

On 28 February 2025, the IPAF China Regional Council (ICRC) was officially founded in a milestone meeting hosted by 3M at their Shanghai facilities.

MARCH

▶ IPAF Elevation Deutschland und Österreich 2025

IPAF Elevation Deutschland und Österreich 2025 took place on 19 and 20 March at HKK Wernigerode.

▶ Launch of 2025 Global Safety Campaign at IPAF Summit

At the 2025 IPAF Summit in Dublin on 13 March, the 2025 Global Safety Campaign *Stop Overturns! Safety Starts on the Ground* was launched, focusing on the importance of ground conditions.

APRIL

▶ IPAF Launches Two New MEWP eLearning Operator Training Options in North America

IPAF launched two new operator training solutions in North America, offering flexible and scalable alternatives to full IPAF Training Centre certification.

▶ IPAF Platform Turkey 2025

IPAF hosted its first-ever event in collaboration with Platformder – IPAF Platform Turkey 2025 – in Istanbul from 29 to 30 April 2025.

MAY

▶ IPAF North America Supports OSHA's 2025 National Safety Stand-Down

From 5-9 May 2025, IPAF North America supported OSHA's National Safety Stand-Down to Prevent Falls in Construction by promoting safe working at height through education, engagement and practical resources.

▶ IPAF ElevAÇÃO 2025

The 12th edition of IPAF ElevAÇÃO took place on 14 May 2025 at Hotel Terras Altas, Itapeverica da Serra, in the metropolitan region of São Paulo.

JUNE

▶ IPAF North America Forms Alliance with the Canadian Rental Association

IPAF North America announced a new alliance with the Canadian Rental Association (CRA).

▶ IPAF Partners with Cancer Charity to Launch PAINT

IPAF launched the Powered Access Industry Trust (PAINT) with Weston Park Cancer Charity to encourage the powered access industry to raise funds for vital cancer research.

JULY

▶ IPAF and Scaffolding Association Australia Sign MoU

IPAF signed a Memorandum of Understanding (MoU) with the Scaffolding Association Australia (SAA) to enhance safety and training standards within the mast climbing work platform (MCWP) industry across Australia.

▶ IPAF Brings Asia Conference to South Korea for the First Time

The IPAF Asia Conference 2025 made a historic debut in South Korea this year.

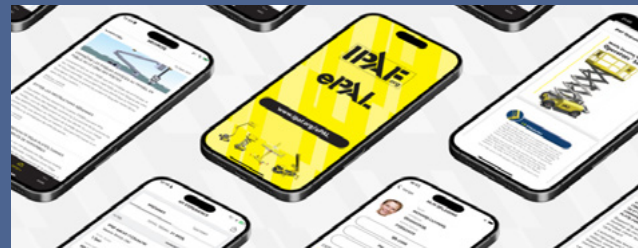

AUGUST

▶ ePAL App Hits 1 Million Downloads

IPAF's ePAL app surpasses one million downloads globally.

▶ RESA Becomes First IPAF-Approved MCWP & Material Hoist Training Centre in Spain

RESA Quality Factory, S.L. (RQF) became the first IPAF-Approved Training Centre in Spain for Mast Climbing Work Platforms (MCWPs) and Material Hoists.

SEPTEMBER

▶ New IPAF Member Benefit: Sustainability Pathways eLearning

This member benefit provides access to tailored online sustainability learning pathways via the Supply Chain Sustainability School.

▶ IPAF and Sponge win four Brandon Hall Group™ HCM Excellence Awards®

IPAF and digital learning provider Sponge jointly won four Brandon Hall Group™ HCM Excellence Awards® for their MEWP Operator Training Course.

OCTOBER

▶ IPAF North America at Working at Height 2025 in Nashville

IPAF hosted the second Working at Height Conference & Awards on 15-16 October 2025 at the Music City Center in Nashville, Tennessee.

▶ IPAF's First-Ever Elevation India Conference in Mumbai

IPAF debuted IPAF Elevation India 2025 on 14-15 November 2025, themed around promoting safe working at height in India's growing powered access sector.

NOVEMBER

▶ IPAF Receives Special Jury Award at 19th Premios Potencia 2025 Gala

IPAF was honoured with the Special Jury Award at the prestigious 19th Premios Potencia 2025, held on 20 November 2025 at the Metropolitano Stadium in Madrid, Spain.

▶ New Guidance on How to Tackle Fraud in Powered Access Rental

IPAF worked with industry partners to create easy-to-digest guidance and handy checklists on identifying, preventing and reporting plant/equipment hire fraud.

DECEMBER

▶ New Starters

In 2025, there were three new starters at IPAF:

Charlotte Hudson – Communications Manager

Verity Lindley – Membership Executive

Layla Rogerson – Customer Services Advisor

▶ End-of-year team meeting

In December 2025, the IPAF team held its annual end-of-year meeting at its UK head office in Crooklands, Cumbria. Staff members based outside the UK joined the meeting virtually via Microsoft Teams. During the session, the team reviewed 2025 activities and key performance indicators (KPIs), and set priorities and plans for 2026.
